SCHOOL DRIVEWAYS

A. PURPOSE

To establish procedures for parents and guardians who transport students to and from school.

B. BACKGROUND

Where separate driveways are provided, parents and guardians who transport students to and from school shall not use the same driveway(s) that buses use for loading or unloading students due to the fact that it increases the safety risk for Anne Arundel County students. Additionally, designated fire lanes shall not be obstructed in a manner that inhibits access by emergency vehicles.

C. PROCEDURES

1. Parents and guardians are required to use the designated drop off area when embarking or disembarking children at school in lieu of school bus driveways and/or bus parking spots.
2. Parents and guardians shall not park along or otherwise obstruct designated fire lanes.
3. Principals shall institute school driveway procedures and monitor same daily in order to provide a safe environment for all students.
4. New schools and renovations shall include plans for separate driveways for bus traffic, and for regular vehicles. Emergency vehicle access shall also be incorporated into these plans.
