Southern High	87.94	86.16	91.18	92.39	90.80	93.44	92.57	**4.63**

[1] The four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. For any given cohort, students who are entering grade 9 for the first time form a cohort that is subsequently "adjusted" by adding any students who transfer into the cohort later during the next three years and subtracting any students who transfer out, immigrates to another country, or dies during that same period.

[2] Grad Rate Δ compares Class of 2011 to 2017.
