

AACPS Graduation Rate for Four Year Cohort

Anne Arundel County Public Schools

February 2020

The adjusted cohort graduation rates are based on a prescribed method of tracking a given cohort of students to determine how many of them graduated within 4-years of starting high school. ¹ New student groups for reporting with the Class of 2018 include homeless, foster care, and military connected students.

The following two tables show the graduation rate for four-year cohorts² since the Class of 2011 (Adjusted Cohort Graduation Rates began with the 9th-grade cohort in 2006-2007).

Anne Arundel County Public Schools 4-Year Graduation Rate Disaggregated by Student Group											
Student Group	Class of 2011	Class of 2012	Class of 2013	Class of 2014	Class of 2015	Class of 2016	Class of 2017	Class of 2018	Class of 2019	2011-2019 Δ	2018-2019

² The four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. For any given cohort, students who are entering grade 9 for the first time form a cohort that is subsequently “adjusted” by adding any students who transfer into the cohort later during the next three years and subtracting any students who transfer out, immigrates to another country, or dies during that same period.
